

Stress carries several negative health consequences and by decluttering all things in your life, you can gain back the freedom and time to start doing the things you really want to do. What 's the cause of your M.E.S.S?

(Mechanical, Emotional, Situational or System Problem)

DID YOU KNOW..... that if you spent 15 minutes everyday looking for lost things, that it would be like giving up a weeks vacation every year.

Getting rid of clutter would eliminate 40% of housework in the average home. 25% of people with a 2 car garage are parking at least 1 vehicle outside because they have too much.

Everybody's idea of what is organized is different. Organizing is not a one size fits all. Each job will be unique, just as my services are unique. I have had many instances where I needed to purchase an item to help with an issue, but couldn't find one. And so.....

SOLUTIONS by SUE was born.

When I can't find what I am looking for, I make it. I love the challenge of creating something no one has for the first time. I am an inventor, crafter, painter, seamstress and I have a knack for finding solutions for my everyday needs. I like to reuse and repurpose items to help save our environment. Living healthy and clean is my goal.

Call me to discuss what Sue-lution I have for you.
